Plants vs zombies garden warfare 2 commando corn

View source comments Share quickly your shooting baby corn wicker deal enough just splash damage to forgive missed shot, and your full commando mode gives him extra ammunition! Defeat five enemies to activate full commando commando Commando corn leads an elite battle group known only as Commando Cultures. Brought up and raised in the trenches of the battlefield, he developed a formidable fighting pro darnity that earned him the respect of his peers. If you have a problem... if no one else can help.... and if you can find it.... maybe you can rent.... Commando corn. Commando Corn is the legendary variant of core corn in plants vs zombies: Garden Warfare 2, which has been added to the DLC front fighters. He shoots slower than the standard corn of the core, but his punches hand out damage similar to the rugby star. Its Legendary mode is called Full Commando, and when activated, the Commando Corn ammonia will increase, from 20 to 50, as well as give it increased speed. The described sticker book description Commando corn leads the elite battle group known only as Commando Cultures. Brought up and raised in the trenches of the battlefield, he developed a formidable fighting pro darnity that earned him the respect of his peers. If you have a problem... if no one else can help.... and if you can find it.... maybe you can rent.... Commando corn. In the game description his fast shooting baby corn wicker deal enough splash damage to forgive the missed photo, and full commando mode gives him extra ammunition! Audio Sound Description Full Commando Music AI Health Easy: 90 Normal: 120 Hard: 150 CRAAAZY: 180 Primary Weapon The main weapon of Commando Corn is Baby Corn Buster. It has a fairly slow fire speed and has a clip size of 20. The recharging speed is significantly long. It compensates for these shortcomings with its high damage (inflicts 15 damage on a direct hit). It also deals with 2 splash damages against zombies. Capabilities complete commando commando corn unique legendary ability. Full Commando activated after Commando Corn managed to destroy 5 zombies in a row. When activated, commando corn's body begins to disintegrate with energy and it instantly regains half of its HP. While Full Commando is active, Commando Corn's ammunition increases by 30, it does 25% more damage, moves 50% faster and 25% damage resistance. The left capabilities of the Barraja Mark the danger zone with steamed hot baked potato, and then stand back like a felling oil from the sky! You better, Butter, that's right, fellas! You'd better, Butter! Instead of very small oil explosions, how about a huge one? The Husk Hop Capability Center deploy this surprisingly acrobatic maneuvers as you jump over your problems, and rain down corn nuts on everything below. Right-wing abilities Shuck Shot Charge their corn cobs while they are steam, point your target, and then ka-blah! Explosive corn. Multi-Shuck More is usually better, so why not seize your enemies with a full barrage of fast explosive fire Upgrades the health update Upgrade This upgrade reduces the delay before the start of health recovery! This upgrade increases the scale distance of the main weapon! Update your health This upgrade increases how quickly your health regenerates! This upgrade allows you to move faster! This upgrade reduces recharge time! This upgrade increases the number of times you can shoot before recharging! This upgrade allows you to fill a super meter faster! This upgrade maximizes your health! Strategies Keep in mind that commando corn's splash radius is not so large and will not count a completely missed shot. His legendary meter makes him more powerful than other variants of the corn core, but the player has to be very accurate with his shots. It is also good to go for larger groups if you are further away from the enemy due to its splash damage and good accuracy. With While there may be a lower fire speed, Commando Corn can do what other variants of the Corn core can't do: splash damage. With its splash damage, you can take a group of zombies at once instead of destroying them one by one. Keep in mind that this only slightly hurts zombies who are not directly hit by your photos. Aim for the largest Zombie in the area as they are the easiest to hit. For really accurate players, go to Imps when you can. Imps can get 5 direct hits from your main weapon. Make sure to recharge every time you defeat an enemy to ensure you have enough ammunition in your clip for your next goal. Furious normal AI zombies and zombie towers are great ways to quickly replenish your legendary meter. If you manage to successfully fill your meter, DO NOT RECHARGE AFTER EACH VANQUISH. The size of your magazine increases from 20 to 50 for the duration of the legendary meter, which means you have a lot of ammunition to take on multiple zombies. Although Commando Corn has splashes, it is a more precise character. He'll only move you if he can hit you directly. Try to move unpredictably so it's hard for him to hit you. Keep in mind that his missed photos are likely to damage you (but only slightly). Ice variants are very effective against this plant as it is large and easy to hit. Lyuben Korn's gallery description refers to the A-team theme: If you have a problem... if no one else can help.... and if you find them... maybe you can rent... of an A-team. The appearance of Commando Corn can be based on equipment and uniforms used by special forces in many modern military, in particular, given the somewhat astounding propriety with the equipment used by the US Military Assistance Command, Vietnam, the Research and Surveillance Group. In the edging that holds the baby corn has an MRE inscription on it. This meal,ready-to-Eat, self-contained, individual field ration in light packaging for use in battle.
